

São Paulo School of Advanced Science on Scenarios and Modelling on Biodiversity and Ecosystem Services to Support Human Well-Being

01 to 14 July 2019, São Pedro, Brazil

Given the complexity of current changes in biodiversity and ecosystem services (BES), the use of scenarios and modelling became not only a top research priority, but also an indispensable tool for decision making. The São Paulo School of Advanced Science on Scenarios and Modelling on Biodiversity and Ecosystem Services to Support Human Well-Being will gather a critical mass of young scientists to discuss scientific knowledge of relevance to society.

Audience: Graduate students (Doctoral course), exceptionally young researchers that got his/her PhD from 2017 onwards can be accepted

Application deadline: **20 February 2019**
